Permittees that fail to submit their Annual Reports are in violation of the MSGP and may be subject to enforcement including the assessment of civil penalties.

Tips for preparing your annual report:

- Gather all your information together before you start working on your MSGP Annual Report (e.g. sampling data/results, quarterly visual assessment forms, routine facility inspection forms, Stormwater Pollution Prevention Plan (SWPPP), and corrective action documentation for any benchmark exceedances).
- Provide a summary of inspection, visual assessment, and corrective action documentation you were required to record over the reporting year.
- NeT MSGP will not allow an Annual Report to be submitted with a blank response to any section. Indicate "N/A" if a section is not applicable to your facility.
- Attach file(s), as needed (not required).
- Certify your report with your electronic signature. Though the annual report may be drafted by someone with a Preparer Role, it must be certified/signed by a person possessing a Signatory Role in CDX as described in Appendix B.11.A of the MSGP or a duly authorized representative of that person as described in Appendix B.11.B of the MSGP. Therefore, ensure the appropriate person has an active CDX account with a Signatory Role and has the Sign permission for the facility within NeT MSGP.
